

## **Re-opening the Village Club – January 2022**

With COVID restrictions beginning to relax and venues starting to open we thought it would be helpful to update all our hall users on the current position within the Village Club. Our new diary timetable is beginning to fall into place (not an easy job!) and we thank everyone for their flexibility.

Because we are not a “managed facility” we rely on everyone to keep the venue as safe and COVID compliant as possible. Our cleaner is at the hall twice a week and has been very helpful and adaptable as we start to open up.

Everyone booking the hall for a class or event is individually responsible for their group and we realise that guidance can vary depending on activities.

### **General guidance for the hall -**

**Social distancing** – there are currently no strict rules about this, but we are not encouraging large social gatherings and would recommend sensible distancing.

**Mask wearing** – again the rules are relaxing but please use masks in a similar way to entering restaurants etc. (i.e. when moving around)

**Cleaning / sanitising** – there are hand sanitising points at every entrance. Please ensure that tables, chairs etc are wiped down before being stored (wipes etc provided in every room)

**Use of loos** – please continue to follow the “one at a time” rule to avoid congestion.

**Ventilation** – the windows are very easy to open in both halls so please ensure good ventilation at all times.

**Enter / exit** – to ease any congestion please make use of the main front door and also the fire exit in the big hall (it is not alarmed!)

Thanks for your understanding.

The Village Club Committee
